Patients:

Patients must advise the office of correct vision and medical insurance by presenting a copy of their card, if applicable, before they are seen by the doctor. If the correct information is not given before the patient is seen, we are not responsible for filing the insurance. A detailed, itemized receipt will be provided for your records for you to file independently and accordingly to your insurance plan. Insured patients are expected to pay their fees as services are rendered, as is for patients without insurance coverage. NO EXCEPTIONS. Patients are also responsible for the balances not covered by the insurance company.

I have read and understand the above information.
